UNIQUE TEACHING-LEARNING PRACTICE

- In 8th semester, students have to undergo Industrial Training of 8 weeks.
- While majority institutions focusing on academic concepts and principles in classroom, our unique practice of teaching-learning set out the students to sense the heat of real world through Industrial Training in their last semester.
- This practice enables students to clench on new industrial processes, business models and corporate cultures quite before receiving their bachelor degree and beginning of their professional life.

EXPOSURE TO DIVERSE INDUSTRIES

- Students are taking rich and in depth experience in their area of interest in different industries through Industrial Training and summer internships.

DISPLAY OF COMPANIES

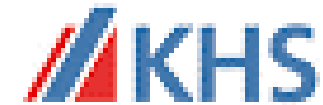

There are more than 80 companies and still students are exploring more companies for their Industrial Training

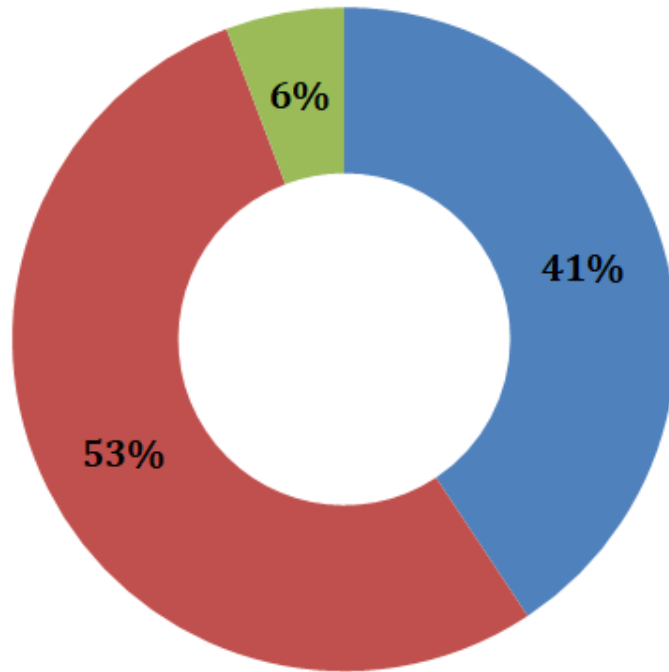

ORIGIN FOR PROFESSIONAL JOURNEY

- Providing Platform where students can offer their knowledge and skills to India's finest industries.
- Our associated recruiters are giant conglomerates and MNCs offering a dream career to selected students.
- Our students are nurtured in such a way that they become competent to take up any challenge in their professional life.
