

Departmental Alumni Activities – Chemical Engineering

The Department of Chemical Engineering at Dharmsinh Desai University takes immense pride in its vibrant and engaged alumni network, which now includes over 3,000 graduates from the B.Tech, M.Tech, and Ph.D. programs. The Chemical Engineering Alumni Association, with representation across all academic levels, continues to be a cornerstone of the department's growth—contributing to curriculum development, offering internships, supporting placements, and delivering expert talks that enrich the student learning experience.

Alumni engagement also extends to infrastructure and student support initiatives. For example, the [Batch of 1974](#), during their Golden Jubilee reunion in 2024, generously contributed over ₹25 lakhs for the development of six state-of-the-art smart classrooms, enhancing the educational environment with modern teaching tools and facilities. Similarly, the [Batch of 1999](#), on their Silver Jubilee, raised a scholarship fund exceeding ₹25 lakhs to support meritorious students, reflecting a deep commitment to nurturing academic talent. The Pradip and Daksha Dalal Endowment Fund has awarded scholarships of ₹25,000 each to outstanding students like Ms. Keta Parikh (2021) and Mr. Acharya Mahimna (2022), while the DDU Alumni Association annually provides Merit-cum-Means Scholarships of ₹10,000, recently awarded to students such as Mistry Tanishkumar and Patel Krutik (2024), and Jadav Darshankumar (2023). These all-round contributions ranging from academic mentoring to financial support and networking are actively coordinated through dedicated alumni [WhatsApp groups](#) and social media platforms, creating a lasting ecosystem of collaboration and mutual growth.
