

DHARMSINH DESAI UNIVERSITY, NADIAD
FACULTY OF TECHNOLOGY
MECHANICAL ENGINEERING DEPARTMENT

The DDU mechanical engineering department always strives to make their students industry ready by organizing trainings and expert lectures on latest technology and business practices. For last many years, we organized many useful trainings and expert lectures for excellence in students' professional knowledge. The brief description of organized events is given below.

Details of Training Organized

No	Year	Date	Duration	No of Participants	Name of Invited Expert/s	Designation Firm	Topic
1	2021	17/5/21	5 days	14	Mr. Nital Zaveri	Concept Business Excellence Pvt. Ltd.	Six Sigma Black Belt Training (Online Mode)
2	2021	30/3/21	4 days	26	Mr. Ritesh Bhatt	Concept Business Excellence Pvt. Ltd.	Lean Six Sigma Green Belt Training (Online Mode)
3	2020	09/11/20	4 days	42	Mr. Sushil Macwan	Concept Business Excellence Pvt. Ltd.	Lean Six Sigma Green Belt Training (Online Mode)
4	2019	01/04/19	4 days	54	Mr. Hiren Kakkad and Mr. Kapil Valand	Concept Business Excellence Pvt. Ltd.	Lean Six Sigma Green Belt Training (Offline Mode)

Details of Expert Lectures Organized

No	Year	Date	Duration	No of Participants	Name of Invited Expert	Designation Firm	Topic
1	2021	22/02/21	1 hour	34	Mr. Pankaj Vidhani	Khodiyar CAD Center	Webinar on Application of Ansys in Mechanical Engineering
2	2020	25/07/20	1 hour	67	Mr. Vipul Hingu	Khodiyar CAD Center	Webinar on Industrial Design with Creo Parametric
3	2020	12/06/20	1 hour	128	Mr. Sunder Iyer	Elite Techno Group	Webinar on Scope in Automotive Industry
4	2020	17/02/20	3 hour	104	Mr. Mayank Arora	Elite Techno Group	Electric Formula Race Car

Glimpse of Events

LEAN SIX SIGMA GREEN BELT PROGRAM (2018-19)

EXPERT LECTURE ON ELECTRIC FORMULA RACE CAR

REC Nital Zaveri is presenting 5:13 PM You

Decision making chart for Hypothesis testing

What is your objective?

- Compare one sample with a target
 - 1 sample t-test
 - 1 sample Standard Deviation
 - 1 sample % defective
 - Chi-square Goodness-of-fit
- Compare two sample with each other
 - 2 sample t-test
 - 2 sample Standard Deviation
 - 2 sample % defective
 - Chi Square test for Association
- Compare more than two sample
 - One way ANOVA
 - Standard Deviation Test
 - Chi-Square % defective
 - Chi Square test for Association
